

Legal Solutions

for a Sustainable Maritime Future

Comprehensive legal support for shipowners, shipyards, and providers of green marine technologies.

As the maritime sector accelerates its transition toward decarbonization and digital innovation, ABM Maritime Group delivers expert legal guidance to navigate regulatory complexity, enable sustainable retrofits, and support compliant newbuild projects. Our legal team ensures your operations are protected, compliant, and ready for the future

Navigating Maritime Law with Precision

Contracts & Project Law

- Drafting of EPC contracts (Engineering, Procurement, Construction) for shipbuilding and retrofitting projects
- Agreements with OEMs
- Terms of cooperation with shipyards in Europe, Asia, and the Middle East
- FIDIC-based contracts for newbuildings

Retrofit & Green Technology Installations

- Legal support for the installation of:
- Wind propulsion systems (rigid sails, rotor sails, kite sails)
- Electric and hybrid engines
- Hull air lubrication systems
- Digital voyage optimization tools (AI routing & SaaS platforms)
- Contractual guarantees, liability, and timeline provisions
- Classification updates with societies

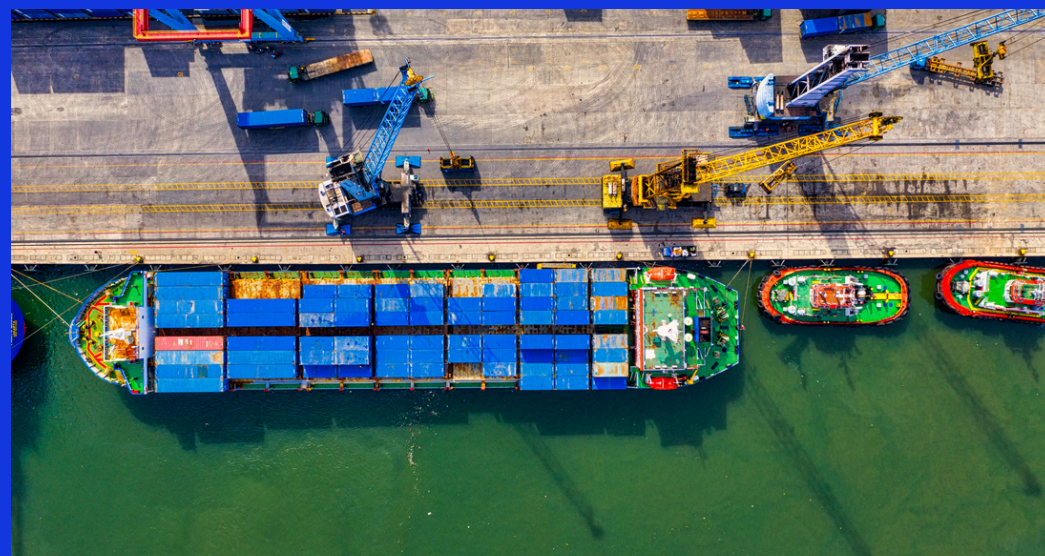

Sale, Purchase & Chartering of Vessels

- Drafting of:
- Memorandum of Understanding (MoU)
- Letter of Intent (LoI)
- Bill of Sale
- Protocol of Delivery and Acceptance
- Full legal due diligence (technical, financial, ownership)
- Risk allocation for retrofitted vessels
- Bareboat, time-charter, and voyage charter agreements

Regulatory Compliance

- Compliance with:
- IMO MARPOL Annex VI
- CII, SEEMP III, IMO DCS, EU MRV
- EU ETS (Emission Trading System for vessels >5,000 GT)
- Technical audit coordination and advisory
- Liaison with classification societies (BV, Lloyd's, DNV, RINA, etc.)

EMPOWERING DECARBONIZATION THROUGH LEGAL INSIGHT
